North Park Improvements Making Progress

The final phase of the North Park new playground installation is underway! The City is replacing the 25-year-old playground with a 30,000 sq. ft. all-access playground with two age-appropriate areas: one for youngsters under the age of five and the other for children 5 – 12 years of age. Sponsored by Dayton Children's, elements include swings, slides, a zipline and climbing tower, in addition to musical play areas. New pickleball courts will be under construction soon. This is Phase 1 of a \$4 million park improvement project. Future plans for the park include upgrades to the areas near the amphitheater and concession building.

Located at 195 Tamarack Trail, North Park is Springboro's busiest park and home to the City's Summer Concert Series and other special events.

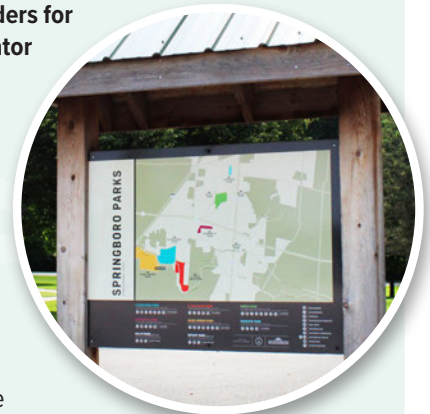

Legislative Update

Your City Council meets monthly at 7 p.m. on the first and third Thursday in Council Chambers to pass legislation and authorize budgeted expenditures related to the management and operation of our City, and the health, safety and welfare of our citizens. Here are just a few agenda items recently approved by City Council.

- **The Annual Appropriations Ordinance:** This ordinance authorizes budgeted expenditures for the calendar year 2024 totaling \$56,870,492 for all City capital and operational expenses.
- A contract with Ritter Plumbing Co. Inc. for the **“Water Main Improvements through Heatherwoode Golf Club”** project. This project consists of installing a water main through the golf course to create a connection from Villages of Creekside to the Heatherwoode Subdivision. This critical water system loop will provide another separate water main connection serving the southern portion of the City. The work will be completed this year, with the cost of improvements totaling \$125,000.
- **A temporary moratorium on the acceptance, consideration and/or granting of any zoning, occupancy, or other permits or applications relating to cultivators, processors or retail dispensaries of adult use cannabis within the City.** Ohio passed Issue 2: an act to control and regulate adult use cannabis, effective December 7, 2023, which has legalized the use of cannabis for adults and established the Ohio Division of Cannabis Control. The division will be responsible for issuing rules on licensing and regulations for operators of adult use cannabis. This moratorium was imposed to provide time to review the regulations and licensing procedures set forth by the state, and assist the City in creating reasonable regulations to protect the health, safety and welfare of the community that are compliant with the newly implemented law.
- **An agreement with the Ohio Department of Natural Resources for a Recreational Trail Program grant of \$150,000 for trail development in Clearcreek Park.** This grant will help fund the

construction of a new multiuse trail in Clearcreek Park this year. The trail will tie into existing trails in the park, and connect to the City’s developing trail to the east in E. Milo Beck Park, and west in Hazel Woods Park. This new trail supports the development of the Central Greenway recommendations of Springboro’s Bicycle & Pedestrian Plan.

- **A contract with Dryden Builders for the “Advanced Drive Generator Replacement” project.** This project consists of replacing a generator for the existing lift station located at the south end of Advanced Drive. Dryden Builders was awarded the bid with construction costs totaling \$180,994. This project will provide a reliable emergency power supply by replacing the existing 20+ year old generator.

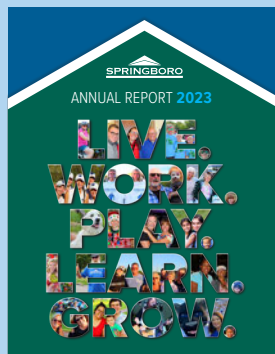

- **Approval of the building elevations and footprint for a 7,000+/- sq. ft. building to be constructed at Wright Station located at the northwest corner of State Routes 73 and 741.** The building will be located along the N. Main Street portion of the development and provide new space for office and retail tenants. This new building will be the fifth constructed by the site’s developer Synergy & Mills Development.

Annual Report Showcases 2023

The City of Springboro Annual Report was mailed in March to every home in the City. The report shows highlights and accomplishments from 2023 as well as budget and project information for 2024. To read the report, visit our website, ci.springboro.oh.us.

Community Leadership Update

Mayor John Agenbroad and At-Large Council Members **Stephen Harding** and **Becky Iverson** began serving new terms of office in January. Ward 3 Council Member **Jack Hanson**, who is serving his sixth year on Council, was selected to serve as Deputy Mayor for 2024. City Council also approved all other council and citizen committee appointments for new terms in 2024. Thank you to all of our dedicated board and commission members for their continued service this year.

In addition, **City Council appointed a nine-member commission in January to review the City’s Charter.** Our charter provides for this review process every eight years and the Charter Review Commission is tasked with studying the City’s current charter and submitting a formal report to Council by July 1. Council will then consider the commission’s recommendation and may authorize the submission of any proposed charter amendments to voters for approval at the general election in November.

Several buildings are in various stages of construction throughout the City. Along St. Rt. 73, **Sheetz** is nearing completion of a 6,100 square-foot building with fuel pumps and a drive-thru. **River Valley Credit Union's** new, state of the art building located on the same lot as its current location on W. Springboro Cycling News

Bicycle Friendly Community

Since 2016 the City of Springboro has been recognized by the League of American Bicyclists, a national bicycle advocacy organization, as a Bicycle Friendly Community, one of 20 in Ohio. The Bicycle Friendly Community program provides a roadmap to make communities like Springboro more welcoming to cyclists. Springboro's designation recognizes the community's commitment to developing policies and programs that promote bicycling including public education, encouragement that creates a culture of cycling, long-range planning and evaluation, accessible and equitable programming and facilities, and infrastructure design and engineering that provide safe places to ride.

Celebrate National Bike Month

As a Bicycle Friendly Community, the City of Springboro and its Bicycle and Pedestrian Advisory Committee (BPAC) are celebrating Bike Month in May with two community bike rides and more. Also during Bike Month, Springboro Police, members of BPAC, and City staff will be "ticketing" Springboro residents 16 and under caught riding **without** their bike helmets and following bicycle safety laws. Ticketed cyclists will receive a free coupon to the K&W Drive-In and free bicycle safety information. So wear your helmet and ride your bike safely! If you need a helmet, call 937-748-6183 and we'll connect you with one. For more on the ticketing program visit BikingInTheBoro.com.

City Receives Federal Funding

A Springboro intersection is set to undergo a significant overhaul, thanks to federal funding secured by Congressman Greg Landsman. The City has been awarded \$850,000 for upgrades at the St. Rt. 741 and Lytle Five Points intersection as part of the 2024 Community Project Funding.

With more than 20,000 vehicles passing through this critical intersection each day, the grant will finance essential infrastructure upgrades including new turn lanes and safety features, improved lighting and signage and better pedestrian access. According to City Manager Chris Pozzuto, the enhancements will reduce congestion and hazards and facilitate new economic development in the surrounding area.

"The safety and security of our residents and motorists is always a priority for us," says Pozzuto. "We are very thankful to Congressman Landsman for supporting this much-needed improvement at one of our busiest intersections."

Design is slated to begin later this year with a construction schedule to be determined at a later date.

Monthly Speaker Series with Premier Health Focuses on Wellness

Police Memorial Week

Each year the Springboro Police Department commemorates National Police Memorial Week—traditionally the second week of May—by placing a wreath on a cruiser in memory of Springboro officer William Johnson, who was killed in the line of duty in 1983. In 2020, the Ohio General Assembly passed a resolution designating a section of West Central Avenue (St. Rt. 73) as Bill Johnson Memorial Highway. Two signs are placed along West Central Avenue in his memory. The City of Springboro honors and remembers all those who have died in the line of duty.

Blue Turns 5!

Blue celebrates his 5th birthday on May 14. The Springboro Police Department's beloved comfort dog will enjoy special treats and lots of hugs from the community. Blue continues to keep a busy schedule visiting schools and nursing homes, comforting individuals in crisis and greeting people at special events.

Congratulations to Officer Blue, whose photo won the Light Ohio Blue FUR Responder Challenge.

Clearcreek Fire District Station 24 Under Construction

After months of planning, construction on the Clearcreek Fire District's fourth station, Fire Station 24, began last fall. Located on Gardner Road, in addition to being an ideal site for serving the northern portion of Springboro, it will also be the new home for district headquarters.

Drop off Expired, Unused Pills at Drug Take Back Day

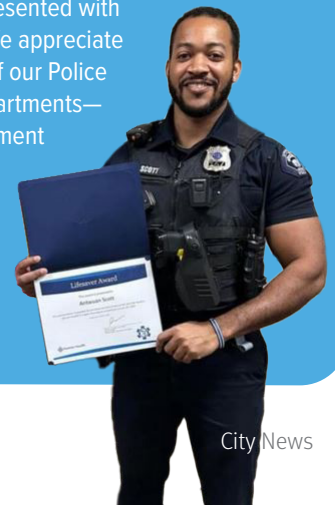

The Drug Enforcement Administration National Prescription Drug Take Back Day provides a safe, convenient and responsible means of disposing of prescription drugs. **Drop off expired, unwanted and unused pills and capsules Saturday, April 27** to the Springboro Police Department. Officers will be on-site 10 a.m. – 2 p.m. to collect prescription and over-the-counter medications. Pills should be removed from containers and placed in a zipper-lock storage bag for disposal. Liquids, creams, powders and needles are not accepted.

Following the event, representatives from the DEA will collect and safely dispose of the medications. In October, more than 185 lbs. of pills were collected from residents.

In addition to participating in the nationwide Take-Back events, the Police Department maintains a drug drop box located in the lobby of the City Building for drop-offs 7 a.m. to 11 p.m., seven days a week. For more information, contact Springboro Police, 937-748-0611.

Officer Scott Awarded Life-Saving Commendation

Officer Antwaun Scott received the Life-Saving Commendation for his part in saving a person in cardiac arrest. Officer Scott was first on the scene and immediately began CPR, playing a vital role in the victim's survival. According to the Premier Health officials who presented the award, because a cardiac arrest needs immediate CPR to prevent neurological damage or death, it is rare to be able to save the victim. Officer Scott has been with the Springboro Police Department for more than 12 years. Members of the Clearcreek Fire Department were also presented with the award. We appreciate the service of our Police and Fire departments—their commitment continues to keep Springboro among the safest cities in Ohio.

Be a Good Neighbor, Keep Fido on a Leash

Walking your dog is great exercise for you and your furbaby. We love seeing our furry friends and their owners out and about enjoying our great parks and neighborhoods!

Please remember that Springboro has a few rules with respect to our four-legged friends.

1. Do not allow your dog to roam freely. Dogs should be confined to your property or walked on a leash and kept under control.
2. Dogs may not run at large on any park property.
3. All pet owners are responsible for cleaning up after their pets.

Following these simple rules help keep our parks safe and enjoyable for everyone.

Take advantage of Logan's Bark Park, our dog park located in Hazel Woods Park. It provides a fun place for dogs to run and play within a fenced area. Wherever you walk your dog, please practice neighborly courtesy by cleaning up any dog waste. Help keep Springboro clean and beautiful!

New Federal Guidelines Require Citywide Inventory of Lead Pipes

The EPA has recently revised its Lead and Copper Rule to better protect communities from exposure to lead in drinking water. Revisions include requiring communities and water utilities to identify lead pipes that connect drinking water service to homes and other buildings. In accordance with the federal mandate, the City of Springboro is required to prepare and maintain an inventory of service line materials for all properties located within the City.

The City asks that you check your plumbing material, complete this form and return it to the City. To identify the plumbing material in your home or business, look in two locations: underneath a sink or next to a water heater. **If your home or business building was constructed after 1986, you do not need to complete the form** as lead pipes were not used. The form will take just a few minutes to complete. Please call 937-748-0020 with any questions.
